

EUROVAC II STAINLESS STEEL STAND ALONE VACUUM

- Powerful 1.6HP X 2 motor provides excellent suction and vacuum performance.
- Controls: System is activated via a coin box or with a push button starter. The system will automatically shut down after a set period of time (1 to 30 minutes).
- Automatic shut down increases the life of the motor and reduces energy costs of running the motor.
- Initial entry of dust and debris removes virtually all the dust prior to the secondary bag filter.
- Optional mounting bracket provided for mounting to an outside wall or post.
- System is provided with one (1) - 2" x 17' hose/claw as a standard. Optional change to 1.5" x 17' hose/claw or different lengths (25' and 50') are available upon request.
- Standard 2" claw color is yellow and optional 1.5" claw color is orange. Standard hose color is blue with black interior. (Custom colors available upon request).
