

EUROVAC II - 5HP CENTRAL VACUUM SYSTEM

Keep your facility clean with a Eurovac central vacuum system

PRODUCT DESCRIPTION

- **Powerful 5HP Pump** produces, 125" of water column and 232" of free flow CFM.
- **Superior Filtration** ... Cyclonic filtration removes 99% of dust before the secondary filter. This results in the unit operating much more efficiently than units which do not have cyclonic filtration. The remaining 1% of dust is removed by a secondary cartridge filter which cleaned by compressed air pulse jet cleaning action.
- **Quiet** ... Muffler and insulated motor housing reduce noise level below 65 dBA's
- **Properly Engineered Pipe** ... graduated 3" to 2" pipe maintains optimum velocity and reduces friction losses significantly compared to systems with 2" piping only
- **On/Off feature** ... Micro switch turns system on and off when hoses is plugged into the inlet.
- **Easy to Install** ... complete installation instruction.

System Benefits

- Increase productivity and efficiency: Place vacuum drops exactly where you need them and eliminate the use of portables..which can often hinder production
- Eliminate breakdowns: High efficiency industrial grade motors and superior filtration systems keep your Eurovac equipment up and running, and always ready for use
- Eliminate unsafe cords on the floor of your work areas: With a Eurovac system installed in your shop, there are no cords to trip on, or to create potentially dangerous situations

A complete range of cleaning accessories including cleaning kits, hoses, overhead tools, brushes and crevice tools
