

EUROVAC

AUTOMOTIVE PRESSURE WASHER

Clean vehicles fast and efficiently with a Eurovac Pressure Washer

PRODUCT DESCRIPTION

Eurovac's belt-driven general ceramic plunger pump with adjustable pressure regulator, pilot-activated flow switch and thermal protection shutdown are built for industrial power washing applications. With its powder coat painted heavy-gauge carbon steel base with pump cover and rubber isolation mounts this system is designed to withstand the most rigorous applications.

Pressure washer also includes NEMA 12 control box with NEMA 4X "manual/off/auto" selector switch, motor starter/overload relay, control circuit transformer (primary to 24 VAC).

KEY FEATURES

- Unique, reliable design - *CSA Approved*
- Belt-driven, oil bath plunger pump with thermo-probe pump protection (S210EA, S315EA - Direct Drive)
- Trigger gun activated start/stop control circuit with solid state time delay shutdown
- Ideal for centralized system with multi station outlets

STANDARD EQUIPMENT:
