

MAXVAC INDUSTRIAL HEPA VACUUM SYSTEM

Product Description

The Maxvac Electric Industrial Vacuum is engineered to deliver powerful and dependable cleaning performance for industrial facilities. Available in configurations ranging from 25 to 75 horsepower, this electric system is designed to maintain strong suction—even as material builds up in the hose. It is capable of moving sand at rates of up to 450 pounds per minute.

Maxvac electric vacuum systems are an ideal choice for handling cleanup in a variety of industrial settings. They combine strength, versatility, and mobility, making them easy to maneuver and simple to operate in demanding environments. In addition, the Maxvac electric vacuum system helps improve overall cleanup productivity by making material removal faster and more efficient.

- High-capacity storage with forklift mobility — Move and manage large volumes of material easily with a forklift-ready design built for industrial environments.
- Advanced filtration performance — Capture even the finest particles to help maintain a cleaner, safer workspace.
- Plug-and-play operation — Pre-wired for quick setup so you can power up and start cleaning immediately.

The MaxVac series adapts to your facility's unique cleaning needs.

MAXVAC INDUSTRIAL VACUUM TECHNICAL DATA						
Horse Power	20 HP	25 HP	30 HP	40HP	50HP	75HP
Voltage/Power	208, 240, 460, 575 – 3 PH 60 Hz (50 Hz Available Upon Request)					
Airflow (CFM)	400	525	625	850	1050	1550
Pressure	16" Hg	16" Hg	16" Hg	16" Hg	16" Hg	15" Hg
Sound Level @ 3'	85 dB(A)					
Filter Area w/Bags (ft ²)	85	85	85	85	125	125
Filter Area w/Cartridges (ft ²)	120	120	120	120	210	210
Filter Efficiency	99.97% @ 0.3 microns					
Collection Capacity (Yrd ³)	1.5	1.5	1.5	2	2	2.5
Weight	3400 Lbs	3555 Lbs	3605 Lbs	4900 Lbs	5105 Lbs	7300 Lbs
